<b>Personal Information</b>	<b>Date of birth:</b> 21 SEP 1978, <b>Marital status:</b> Married, <b>Languages:</b> Danish (beginning), English, Farsi, speaking and writing.
<b>Academic Qualifications</b>	<b>Ph.D.</b> Statistics, JUNE. 2011, University of Mumbai, Mumbai, India. <b>M.Sc.</b> Mathematical Statistics MAY. 2003, Ferdowsi University of Mashhad, Mashhad, Iran, <b>B.Sc.</b> Statistics, JAN. 2000, University of Kerman, Kerman, Iran,
<b>Software</b>	R, Python, SAS, SPSS, MINITAB, JMP, SPLUS, STATA, STATGRAPH, PASS, Gpower, STATISTICA, Eviews, Amos, MATLAB, MAPLE, MATHEMATICA, LINDO, LINGO, PASCAL, C++, MICROSOFT OFFICE, LaTeX, etc.
<b>Applications</b>	<b>Shiny Applications:</b> Trade in Cryptocurrencies, COVID-19 Reading data Modelling and Forecasting, Detecting Outliers, Box-Cox transformation, Simulations, Univariate and Multivariate Data Analysis, Linear Model Fitting ( <a href="http://shiny.um.ac.ir/jabbarinm/">http://shiny.um.ac.ir/jabbarinm/</a> ), LRQMM R package ( <a href="https://jabbarinm.shinyapps.io/detecting_outliers_in_pareto/">https://jabbarinm.shinyapps.io/detecting_outliers_in_pareto/</a> ).
<b>Research interest/Activities</b>	Data Science, Statistical Computations, Biostatistics, Outliers and Robust, Simulations, Modeling, Data Mining, Actuary, Statistical Quality Control, Econometrics, Finance/ Group or Team Working, Communication, Eating Cake, Coffee, Playing Football, Handball, Swimming, ....
<b>Some of the Statistical Senior Advisor</b>	Computer lab Management in Faculty of Mathematical Sciences in Ferdowsi Univ., Biostatistician at Imam Reza Hospital Research Center, Mashhad Medical Univ. Research Center, Carton Mashhad Industrial Company, Amir Kabir Research Center, Mashhad Municipality Traffic Research Center, Khorasan Industrial Estate Company, Iran Small Industrial & Parks Organization, etc.
<b>Postgraduate students</b>	Several PhD and MSc Students
<b>M.Sc. Thesis</b>	Several New Methods for Multivariate Statistical Quality Control
<b>Ph.D. Thesis</b>	Estimation of the Parameters of the Pareto Distribution in the Presence of Outliers
<b>Thesis Supervisor</b>	<b>M.Sc.:</b> Prof. N. R. Arghami, <b>Ph.D.:</b> Prof. U. J. Dixit
<b>Some of the Research Plans Awards</b>	<ol style="list-style-type: none"> <li>1. Designing and creating several applications for statistical and mathematical modeling, machine learning, and simulations.</li> <li>2. Building applications for simulating and numerical calculations of complex articles.</li> <li>3. Designing and building robots for modeling, predicting, and identifying smart money for buying and selling cryptocurrencies and stock exchange.</li> <li>4. Modeling and forecasting number of confirmed and death caused COVID-19 in IRAN: A comparison of time series forecasting methods.</li> <li>5. Estimate daily case fatality rate and cure rate of COVID-19 in IRAN and compare to other countries: A cluster analysis.</li> <li>6. Statistical quality control, Retrieve cases, and Sale cases in Carton Mashhad Industrial Company.</li> <li>7. Investigate the methods of reducing the economic and environmental costs of garbage and solid waste materials in Mashhad with the Mashhad Municipal Materials Recycling and Conversion Organization. Comprehension design to add and bury the additional material of hygienic in the other cities at Khorasan province.</li> <li>8. Research for Physical education management of Ferdowsi University of Mashhad in the field of research projects in sports affairs.</li> <li>9. Research plan to investigate and study the position of industrial estate in Khorasan province in attracting industries and the level of motivation created in the direction of industrial investment.</li> <li>10. Research projects of youth and teenagers for the National Youth Organization in the field of leisure.</li> <li>11. To analyze and explain the philosophical mindset of students, coaches, supervisors and managers participating in the 6th Sports Olympiad of Iran.</li> <li>12. To investigate and study productivity in the industrial units of the province and how to use the created capacities and existing facilities.</li> <li>13. Productivity and work of technical and professional education in general technical and vocational administration.</li> <li>14. Investigate the methods of reducing the economic and environmental costs of garbage and solid waste materials in Mashhad with the Mashhad municipal materials recycling and conversion organization.</li> <li>15. Investigate the educational needs of employers and female job seekers in Khorasan province to the general technical and vocational department of Khorasan province.</li> <li>16. A comprehensive plan to investigate the causes of road accidents in Khorasan province with the cooperation of the country's transportation and terminals organization and the police force.</li> <li>17. To investigate the level of satisfaction of those who refer to car service centers across the country.</li> <li>18. Evaluation of the amount of consumption of raw materials and production of industrial estates and to provide the necessary solutions for the construction of suitable industrial units in different parts of the province.</li> <li>19. Investigate and evaluate the water consumption of industrial estate in Industrial estates and provide the necessary solutions to optimize water consumption.</li> <li>20. Investigate and evaluate industrial investors from various dimensions to create industrial estate.</li> <li>21. Evaluation Total Quality Management (TQM) in industrial estates of Khorasan province.</li> </ol>

	<ol style="list-style-type: none"> <li>22. Examine the licenses of establishments and examine the problems of the industries in Khorasan region.</li> <li>23. Predict the need of industrial land needed for the industrial estate around the city.</li> <li>24. Investigate the activity status of operational, inactive, restarted industrial estate located in Khorasan industrial estates and investigating their problems from different dimensions.</li> <li>25. Propose a model for allocating the budget of the general department of physical education of the Ministry of Science, Research and Technology to state universities across the country.</li> <li>26. Evaluate allocating of the budget for the industries estates in Khorasan province.</li> <li>27. Analysis of statistical yearbooks data of Mashhad municipality.</li> <li>28. Investigate the level of awareness and usage of the managers, employees and customers of Maskan Bank of Khorasan province of electronic banking services and compare it with other selected banks.</li> <li>29. Forecast the number of tourists in Mashhad in a 10-year horizon.</li> <li>30. Statistical survey of source-destination forms for collecting traffic and traffic information in Khorasan province.</li> <li>31. Designing and implementing the statistical data dictionary of Mashhad municipality with the approach of developing the registered statistical system of urban management.</li> </ol>
<b>Research Workshops in Industries</b>	<ol style="list-style-type: none"> <li>1. Presenting several training workshops on the use of statistics and data science in industries in the food industry and biotechnology park of industrial estate of Iran.</li> <li>2. Teaching short courses of statistics and its application in management and industries and teaching statistical software for data analysis for the managers of SMEs.</li> <li>3. Teaching applied statistics courses and various statistical software for master Khorasan Industrial Management organization.</li> </ol>
<b>Some of Recent Papers in Peer-Review Journals</b>	<p><b>More than 200 papers In Refereed Journals and Conferences</b></p> <ol style="list-style-type: none"> <li>1. Kheirolah Okhli, Mehdi Jabbari Nooghabi, <a href="#">On the three-component mixture of exponential distributions: A Bayesian framework to model data with multiple lower and upper outliers</a>, Mathematics and Computers in Simulation 208 (2023) 480-500</li> <li>2. <b>Some of the Courses Taught:</b>	<p>Applied Statistics, Biostatistics, Statistical Analysis by SAS software for MSc of Statistics and PGDASS diploma program. Statistical and Computational Applications for resource person at Refresher course for College and University Teachers. Simulation, Statistical Lab, Statistical Computations I&amp;II&amp;III, Modeling, Data Mining, Advanced Data Mining, Computer application in Sport, Regression I&amp;II, Prediction and Control, Time Series I&amp;II, Statistical Quality Control, Engineering Statistics, Industrial Statistics, Statistical Analysis, Multivariate Discrete and Continues Analysis, Linear models and their application in Genetics, etc.</p>
