Apps. http://si	inty.uni.ac.in/jabbaninin/		
Personal Information	Date of birth: 21 SEP 1978, Marital status: Married, Languages: German (beginning), Danish (beginning), English, Farsi, speaking and writing.		
Academic Qualifications	Ph.D. Statistics, JUNE. 2011, University of Mumbai, Mumbai, India. M.Sc. Mathematical Statistics MAY. 2003, Ferdowsi University of Mashhad, Mashhad, Iran, B.Sc. Statistics, JAN. 2000, University of Kerman, Kerman, Iran,		
Software	R, Python, SAS, JMP, PASS, Gpower, MAPLE, MICROSOFT OFFICE, LaTeX, etc.		
Applications	Shiny Applications: Univariate and Multivariate Data Analysis, Simulations, Reading data Modelling and Forecasting Trade in Cryptocurrencies, COVID-19, Detecting Outliers, Box-Cox transformation, Linear Model Fitting (http://shiny.um.ac.ir/jabbarinm/), LRQMM R package (https://jabbarinm.shinyapps.io/detecting_outliers_in_pareto/).		
Interest/ Activities (Hobbies)	Data Science, Statistical Computations, Biostatistics, Outliers and Robust, Simulations, Modeling, Data Mining, Actuary, Statistical Quality Control, Econometrics, Finance/ Group or Team Working, Communication, Eating Cake, Coffee, Playing Handball, Swimming,		
Some of the Statistical Senior Advisor	Computer lab Management in Faculty of Mathematical Sciences at FUM, Biostatistician at Surgical Oncology Research Center, MUMS, Carton Mashhad Industrial Company, Amir Kabir Research Center, Mashhad Municipality Traffic Research Center, Khorasan Industrial Estate Company, Iran Small Industrial & Parks Organization, etc.		
Postgraduate			
students	Several PhD and MSc Students		
M.Sc. Thesis	Several New Methods for Multivariate Statistical Quality Control		
Ph.D. Thesis	Estimation of the Parameters of the Pareto Distribution in the Presence of Outliers		
Thesis Supervisor	M.Sc.: Prof. N. R. Arghami, Ph.D.: Prof. U. J. Dixit		
Research Workshops in Industries	Presenting several training workshops on the use of statistics and data science in industries in the food industry and biotechnology park of industrial estate of Iran. Teaching short courses of statistics and its application in management and industries and teaching statistical software for data analysis for the managers of SMEs. Teaching applied statistics courses and various statistical software for master Khorasan Industrial Management organization.		
Some of the Courses Taught in the Universities Some of the	 Applied Statistics, Biostatistics, Statistical Analysis by SAS software for MSc of Statistics and PGDASS diploma program. Statistical and Computational Applications for resource person at Refresher course for College and University Teachers. Simulation, Statistical Lab, Statistical Computations I&II&III, Modeling, Data Mining, Advanced Data Mining, Computer application in Sport, Regression I&II, Prediction and Control, Time Series I&II, Statistical Quality Control, Engineering Statistics, Industrial Statistics, Statistical Analysis, Multivariate Discrete and Continues Analysis, Linear models and their application in Genetics, etc. Designing and creating several applications for statistical and mathematical modeling, machine learning, and 		
Research Plans Awards (Statistical Advisor on the Team)	 simulations. Building applications for simulating and numerical calculations of complex articles. Designing and building robots for modeling, predicting, and identifying smart money for buying and selling cryptocurrencies and stock exchange. Modeling and forecasting number of confirmed and death caused COVID-19 in IRAN: A comparison of time series forecasting methods. Estimate daily case fatality rate and cure rate of COVID-19 in IRAN and compare to other countries: A cluster analysis. Statistical quality control, Retrieve cases, and Sale cases in Carton Mashhad Industrial Company. Investigate the methods of reducing the economic and environmental costs of garbage and solid waste materials in Mashhad with the Mashhad Municipal Materials Recycling and Conversion Organization. Comprehension design to add and bury the additional material of hygienic in the other cities at Khorasan province. Research for Physical education management of Ferdowsi University of Mashhad in the field of research projects in sports affairs. Research plan to investigate and study the position of industrial estate in Khorasan province in attracting industries and the level of motivation created in the direction of industrial investment. Research projects of youth and teenagers for the National Youth Organization in the field of leisure. To analyze and explain the philosophical mindset of students, coaches, supervisors and managers participating in the 6th Sports Olympiad of Iran. 		
	• To investigate and study productivity in the industrial units of the province and how to use the created		

	•	acities and existing facilities.
		ductivity and work of technical and professional education in general technical and vocational
		ninistration.
		estigate the methods of reducing the economic and environmental costs of garbage and solid waste terials in Mashhad with the Mashhad municipal materials recycling and conversion organization.
		estigate the educational needs of employers and female job seekers in Khorasan province to the general
		nnical and vocational department of Khorasan province.
		omprehensive plan to investigate the causes of road accidents in Khorasan province with the cooperation
		he country's transportation and terminals organization and the police force.
		investigate the level of satisfaction of those who refer to car service centers across the country.
	• Eva	luation of the amount of consumption of raw materials and production of industrial estates and to provide
	the	necessary solutions for the construction of suitable industrial units in different parts of the province.
	 Inve 	estigate and evaluate the water consumption of industrial estate in Industrial estates and provide the
		essary solutions to optimize water consumption.
		estigate and evaluate industrial investors from various dimensions to create industrial estate.
		luation Total Quality Management (TQM) in industrial estates of Khorasan province.
		mine the licenses of establishments and examine the problems of the industries in Khorasan region.
		dict the need of industrial land needed for the industrial estate around the city.
		estigate the activity status of operational, inactive, restarted industrial estate located in Khorasan industrial
		ates and investigating their problems from different dimensions.
		pose a model for allocating the budget of the general department of physical education of the Ministry of ence, Research and Technology to state universities across the country.
		Iluate allocating of the budget for the industries estates in Khorasan province.
		alysis of statistical yearbooks data of Mashhad municipality.
		estigate the level of awareness and usage of the managers, employees and customers of Maskan Bank of
		brasan province of electronic banking services and compare it with other selected banks.
		ecast the number of tourists in Mashhad in a 10-year horizon.
		tistical survey of source-destination forms for collecting traffic and traffic information in Khorasan province.
	• Des	signing and implementing the statistical data dictionary of Mashhad municipality with the approach of
	dev	eloping the registered statistical system of urban management.
